Does your airport have these concerns?

Discrepancies on ICAO and FAA Part 139 Inspections

- Non-Compliant Marking installation, and Procedures
- Inefficient Airfield Pavement Maintenance Plan
- Lack of Experienced In-House Personnel

Unqualified Contractors

- Lack of Airfield Knowledge and Eperience
- Deficient Equipment and Resources
- Poor Safety Records

Poor Airfield Markings

- Inconsistent Layout and Retroreflectivity
- Faded, Chipped, or Peeling Markings
- Lack of Proper Surface Preparation

Pavement Degradation

- Aggressive Rubber/Paint Removal Techniques
- Lack of Pavement Preventative Maintenance
- Declining PCI Reports & Increased FOD

Industry Concerns

Airports Council International (ACI) predicts passenger traffic will double to 14 billion by 2029. As a result, airports will work at or above capacity resulting in many critical challenges in the AOA. Primarily, airports need to address issues surrounding visual aids and pavement maintenance to prepare airfields today for a safer tomorrow.

The Solution: Hi-Lite On Your Team

Airfields are complex environments requiring specialized solution providers. Your airport needs Hi-Lite on its team to navigate through these issues. The advantages of having Hi-Lite on your team include:

- Experienced Personnel
