Awarded Contract

Contract # 110122-HLA

# Airfield Maintenance Services Sourcewell Awarded Contract

# Airfield Maintenance Services

The Sourcewell awarded contract serves as a one-stop solution for airports' maintenance needs. By scheduling routine maintenance, airports act on a proactive and predictive basis to address safety and compliance concerns. Airport operators mitigate risks resulting from traditional reactive maintenance processes.

## Included Services & Products:

- Long-Term Airfield Maintenance
- Pavement Marking
- Preformed Thermoplastic
- Paint, Mildew, and Rubber Removal
- Paint and Beads
- Surface Preparation
- Joint and Crack Sealing
- Seal Coating and Surface Treatments
- Friction and Retroreflective Testing
- Paint Equipment

Sourcewell 

# Compliant, Competitive, and Convenient

In Response to a national competitive bid, Sourcewell has awarded Hi-Lite Airfield Services a contract for Airport Consumable Products with Related Supplies and Services.

- **Compliant:** In most cases, Sourcewell meets or exceeds the same process airports go through to be competitive in solicitations
- **Competitive:** Cooperative purchasing model for industry preferred airfield maintenance services and products
- **Convenient:** Allows airports with urgent needs to expedite mobilizations and project execution while satisfying most agencies' competitive bid requirements.

The competitive bid process that Sourcewell went through mirrors the one from their agencies. In the case of the airfield maintenance bid, Sourcewell:

- Performed a national advertisement
- Accepted sealed bids (dated and stamped)
- Evaluated responses on a 1,000 point scale
- Approved bids by CPO and board of directors
- Ultimately awarded vendors in the category

## Success Stories

### Dallas Love Field Airport

The Dallas Airport System has used the Sourcewell awarded contract as a mechanism to implement Hi-Lite's airfield maintenance program at Dallas Love Field Airport (DAL), Dallas Executive Airport (RBD), and Dallas CBD Vertiport (49T). Love Field has been able to efficiently reallocate in-house maintenance resources and attain zero discrepancies on FAA Part 139 annual inspections. All the work orders are executed by Hi-Lite's local crews.

### Memphis International Airport

The Sourcewell awarded contract also serves as a mechanism for airports seeking to execute expedited work. In the case of the Memphis International Airport, Hi-Lite has rapidly mobilized crews and specialized equipment to install and replace hold bars and SPHPS. Contracts have also included taxiway markings and crack sealing.

### Louisville International Airport

Through the Sourcewell contract, Hi-Lite has performed marking removal, and pavement marking on three runways and multiple taxiways for the Louisville International Airport. The contract has allowed Louisville International Airport to procure services through Sourcewell's preexisting competitive bid that met all of the bid compliance requirements set forth by the Airport Authority.

# Airfield Maintenance Services

## About Hi-Lite

Hi-Lite is the industry leader in airfield pavement maintenance. As your strategic partner, we offer airfield solutions to streamline operational efficiencies, maximize airfield safety, and ensure ICAO and FAA Part 139 compliance.
